DETAILED ACTION

1. Claims 1 – 20 are pending in this application.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 2, 4, 5, 8 – 12, 14, 15 and 18 – 20 are rejected under 35

U.S.C. 102(e) as being anticipated by U.S. Patent Publication number 2004/0015476

A1 issued to Graham Kennedy Twaddle ("Twaddle").

With respect to claim 1, Twaddle teaches a method for creating a portal web site, comprising: collecting preference data from a user of the portal web site, the preference data identifying a set of user preferences about the appearance and operation of the portal web site; storing the preference data within a database; and generating the portal web site based upon the preference data (abstract, paragraphs [0019 – 0020 and 0049]).

As to claim 2, step performed before the step of collecting preference data: storing seed data within a database, the seed data identifying an initial appearance and operation of the portal web site (paragraphs [0018 – 0019]).

As to claim 4, the step of generating the portal web site is performed entirely within the database (paragraph [0049]).

As to claim 5, the step of generating the portal web site comprises creating one or more user based upon the preference data, wherein each user may access the portal web site (paragraph [0049]).

As to claim 8, transmitting an email to a user to indicate that the step of generating the portal web site is complete(paragraphs (paragraph [0049])).

As to claim 9, data identifying a set of portlets to appear on the portal web site (paragraph [0022]).

As to claim 10, the step of generating the portal web site is performed by storing data in a portal schema, wherein the portal schema contains data comprising two or more portal web sites (paragraph [0019]).

Claims 11, 12, 14, 15 and 18 – 20 are essentially the same as claims 1, 2, 4, 5 and 8 – 10 except that it sets forth the claimed invention as a computer-readable medium rather than a method and rejected for the same reasons as applied hereinabove.

Allowable Subject Matter

3. Claims 3, 6, 7, 13, 16 and 17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
